Dear Parent/Carer

Thank you for enquiring about the Northumberland Disabled Children's Register (Infolink). We are pleased to enclose an application for the Register.

Northumberland Children's Services has a statutory duty to identify disabled children across the county. This is done by holding a Disabled Children's Register (DCR).

The information is used to help the Authority target areas of need and provides clear information regarding children with similar disabilities in geographical areas.

The DCR is voluntary and details of your child cannot be added without your permission. By registering your child, you are helping Northumberland to develop services for disabled children and young people which are responsive to their needs.

Being part of the DCR is not a way of being assessed for services and will not provide or take away any services for you or your child.

We look forward to receiving your completed questionnaire.

Yours sincerely

Kirstine
